WHY OUR PROPS

New, durable, ready for rental

New & hot-dip galvanized.

The zinc coats the whole prop, welds included, and protects durably against rust, even through the rainy season. Not worn second-hand gear.

Sale AND rental.

Buy to amortize across all your sites, or rent for as long as you need, for individuals, masons and companies.

Bespoke for volume.

For large orders, we adapt the specifications to your needs.

Sample in hand.

Check the quality before you buy. Manufacturer technical documentation on request.
